Hi David,

Thanks also for your request to use the 2025 sizing for your side window numbers, more than happy to grant this approval.

Kind Regards,

Jonathan

Jonathan,

I'm told by our supplier that (with your consent) several events have been running with 20cm high rear side window numbers (the 2025 requirement) rather than the 25cm high numbers required by the 2024 regulations.

So that we don't have 25cm numbers left over after this event which we'll not be able to use next year, I'd be grateful if you could give us a dispensation to use either 25cm or 20cm high rear side window numbers on both events (the adult event: NHMC Cadwell Stages Rally and the junior event: the NHMC Cadwell Junior Rally).

Currently, I am hoping to use 25cm numbers for the juniors (to use up our existing stock) and 20cm numbers for the adults.

David
